

# MORE TRIALS MORE WINS

## Stepping up on your stomping grounds near Claremont, SD.

Plant locally tested Pioneer® brand products and watch the yields stack up in your favor.

Entry #	Brand	Variety/Brand	Yield Rank	Moisture	Income/Acre <sup>1</sup>	Yield (Bu/A)
1	Asgrow	AG0934	6	13.8	\$483	53.7
 2	Pioneer	P08A72X 	5	13.5	\$505	56.1
3	Pioneer	P10T41X	7	13.2	\$482	53.5
 4	Pioneer	P11A95X 	4	13.2	\$512	56.9
5	Pioneer	P12A59X	8	13.2	\$472	52.4
6	Pioneer	P15A63X	3	13.6	\$525	58.3
 7	Pioneer	P16A35X 	1	13.8	\$563	62.6
8	Asgrow	AG1431	2	13.6	\$527	58.6

Plot name: Wegleitner Farms  
Planting date: 5/11/2017  
Harvest date: 10/06/2017  
Location: Claremont, SD

## Make these products part of your winning plan.

Work with your local DuPont Pioneer team to select a lineup of products that will push your yields higher on every single acre in 2018.

Visit [pioneer.com/yield](http://pioneer.com/yield) to view more results near you.

Pioneer® brand products with the Yield Hero# designation by DuPont Pioneer are based on impressive and consistent performance in your geography.

<sup>1</sup> Income/A Advantage is calculated with the price of soybeans at \$9.00 per bushel.

<sup>a</sup>Pioneer® brand products with the *Yield Hero* designation are geographically selected based on a combination of factors, including local product availability, yield performance, defensive traits, agronomic characteristics, trait packages and grower preference.

All Pioneer products are varieties unless designated with LL, in which case some are brands.

Data is based on an average of 2017 comparisons made in ND, SD through 10/9/2017. Comparisons are against All competitors unless otherwise stated, and within 2 +/- CRM/RM of the competitive brand. Product responses are variable and subject to any number of environmental, disease and pest pressures. Individual results may vary. Multi-year and multi-location data are a better predictor of future performance. DO NOT USE THIS OR ANY OTHER DATA FROM A LIMITED NUMBER OF TRIALS AS A SIGNIFICANT FACTOR IN PRODUCT SELECTION. Refer to pioneer.com/products or contact a Pioneer sales representative or authorized dealer for the latest and complete listing of traits and scores for each Pioneer® brand product.

Maximize soybean performance with the Pioneer Premium Seed Treatment offering.

Components under the Pioneer Premium Seed Treatment offering for soybeans are applied at a DuPont Pioneer production facility or by an independent sales representative of Pioneer. Not all sales representatives offer treatment services, and costs and other charges may vary. See your Pioneer sales representative for details. Seed treatment offering is exclusive to DuPont Pioneer and its affiliates.

**DO NOT APPLY DICAMBA HERBICIDE IN-CROP TO SOYBEANS WITH Roundup Ready 2 Xtend® technology unless you use a dicamba herbicide product that is specifically labeled for that use in the location where you intend to make the application. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO MAKE AN IN-CROP APPLICATION OF ANY DICAMBA HERBICIDE PRODUCT ON SOYBEANS WITH Roundup Ready 2 Xtend® technology, OR ANY OTHER PESTICIDE APPLICATION, UNLESS THE PRODUCT LABELING SPECIFICALLY AUTHORIZES THE USE. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with soybeans with Roundup Ready 2 Xtend® technology.**

**ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.** Soybeans with Roundup Ready 2 Xtend® technology contain genes that confer tolerance to glyphosate and dicamba. Glyphosate herbicides will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba.

Roundup Ready 2 Xtend® is a registered trademark of Monsanto Technology LLC used under license.

<sup>A</sup>EXPORT APPROVAL NOTICE: These products are authorized for planting in the United States and Canada. While many import market authorizations are in place, grain and byproducts produced from grain containing this technology may not be authorized in some markets. Growers that use this product are required and agree to adhere to the stewardship requirements as outlined in the Pioneer Product Use Guide and product-specific stewardship requirements for this product. For questions regarding product stewardship and biotech traits, please contact your sales representative or refer to [www.pioneer.com/stewardship](http://www.pioneer.com/stewardship). Growers are required to discuss trait acceptance and grain purchasing policies with their local grain handler prior to delivering grain containing biotech traits.

Always follow stewardship practices in accordance with the Product Use Guide (PUG) or other product-specific stewardship requirements including grain marketing and pesticide label directions. Varieties with BOLT® technology provide excellent plant-back flexibility for soybeans following application of SU (sulfonyleurea) herbicides such as DuPont™ LeadOff® or DuPont™ Basis® Blend as a component of a burndown program or for double-crop soybeans following SU herbicides such as DuPont™ Finesse® applied to wheat the previous fall.

Always follow grain marketing, stewardship practices and pesticide label directions. Varieties with the Glyphosate Tolerant trait (including those designated by the letter "R" in the product number) contain genes that confer tolerance to glyphosate herbicides. Glyphosate herbicides will kill crops that are not tolerant to glyphosate.

Always follow grain marketing, stewardship practices and pesticide label directions. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. Genuity®, Roundup® and Roundup Ready 2 Yield® are registered trademarks of Monsanto Technology LLC used under license. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

**Pioneer is a member of Excellence Through Stewardship® (ETS).**

Pioneer is a member of Excellence Through Stewardship® (ETS). Pioneer products are commercialized in accordance with ETS Product Launch Stewardship Guidance and in compliance with the Pioneer policies regarding stewardship of those products. Crops and materials containing biotech traits may only be exported to or used, processed, or sold in jurisdictions where all necessary regulatory approvals have been granted for those crops and materials. It is a violation of national and international laws to move materials containing biotech traits across borders into jurisdictions where their import is not permitted. Growers should discuss these issues with their purchaser or grain handler to confirm the purchaser or handler's position on products being purchased. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

**Varieties with the LibertyLink® gene (LL)** are resistant to Liberty® herbicide. Liberty®, LibertyLink® and the Water Droplet Design are trademarks of Bayer.

**Varieties with the DuPont™ STS® gene (STS)** are tolerant to certain SU (sulfonyleurea) herbicides. This technology allows post-emergent applications of DuPont™ Synchrony® XP and DuPont™ Classic® herbicides without crop injury or stress (see herbicide product labels). NOTE: A soybean variety with a herbicide tolerant trait does not confer tolerance to all herbicides. Spraying herbicides not labeled for a specific soybean variety will result in severe plant injury or plant death. Always read and follow herbicide label directions and precautions for use.

SCN = Resistant to one or more races of Soybean Cyst Nematode.

PIONEER® brand products are provided subject to the terms and conditions of purchase which are part of the labeling and purchase documents.
